

ME325-Mechanical Engineering Group Projects- Proposal presentation

Please note the following

1. Presentation time is 8 min + question/ answer time (around 10 slides are enough)
2. One or few members of the group can present. But all the members of the group should answer for the questions.
3. It is important to illustrate the details with more pictures.

3. Content of the presentation

Title

Aim

Objectives

Intended learning outcomes

Brief introduction about your project

Methodology with sketches

Proposed software's

Timeline (need to include the same time line in the proposal also)

References, etc.

Upload your presentation to the given link in the course page.
